## 2024 Spring Floral Design Workshops

These one-a-kind workshops are to share my ideas as a gift to you. Offered in the hope they will inspire you to look at design in an alternative way and...to do so working with the environment. All of my classes are meant to bring nature to you-revitalizing your spirit with the freshness of the outdoors. All classes are Hands-on or Symposium style (to watch but limited to 3 per class for hands on student space). **As always, bring anything you may have and like to include. :)**

### AVIAN BOWL Thursday March 14 cost=110.

A modern take for Spring where we construct an unusual, flower frog from miniature eggs to insert inside a bowl. All to hold and arrange spring blooms and branches. Pretty cool for the Zen lover. \*note-- a glue gun is needed -if you have your own bring it.

### HYACINTH NEST Tuesday March 19 cost= 65.

Just the sweetest nestlike base that we handmake to hold a bouquet of flowers including the lovely hyacinth. Floral accents include eucalyptus, leaves, feathers, etc. A real charmer and that scent!

### WILD BOUQUET Wednesday March 20 cost=125.

Making a unique, vine armature base to hold a tall, abstract bouquet in a spring explosion of pussy willow, eucalyptus, St. Johns Wort berries, tulips, Peruvian lily, and all sort of wispys. A modern and wild alternative to the compact handtied bouquet to perk your own creativity of design. Super dramatic and big.

### MOSSY GARDEN Thursday March 21 cost=75.

A wonderfully, unique alternative to a pot of spring bulbs. We make a moss 'pseudo pot' to hold mini blooming, bulb plants accenting with faux eggs, feathers, and branches. A gardeners dream.

### STANDING TULIP BOUQUET Friday March 22 cost=85.

It's tulip mania time and here we make a unique, free standing, arrangement of tulips combined with all sort of branches & twigs. A really, super diversion from the common vase of tulips.
